

# WRA GreenUp Additional Information

## Jim Baney Bio

Jim Baney is the General Manager of GreenUp and has over two decades of experience in the management of environmental restoration and landscape construction projects. Jim leads the GreenUp team providing key operational and maintenance services for green stormwater infrastructure throughout Philadelphia, including horticultural management, grounds maintenance, retrofits and repairs, CCTV pipe inspection, and construction oversight. Certified as an instructor for the National Green Infrastructure Certification Program (NGICP), he recently led a training program through the School District of Philadelphia to help graduating seniors achieve NGICP certification. Additionally, Jim has also served as an instructor for numerous green infrastructure maintenance training programs throughout the region.

## Daniel Bauer Bio

Daniel Bauer is a Landscape Supervisor with experience as a landscape designer, project manager, and business manager. He is the project lead for major green stormwater infrastructure projects in Philadelphia, including citywide landscape maintenance and installation projects with the Philadelphia Water Department and with the School District of Philadelphia. Daniel is responsible for training and onboarding GreenUp's field personnel and works to create and maintain a culture of safety and continued on-the-job learning for all staff. He has also served as an instructor for the Green Infrastructure Maintenance Mentor Protege Program with Capital Region Water in Harrisburg, Pennsylvania.

## Quotes from Jim

"Green stormwater infrastructure is important work, and we appreciate the opportunity to be in the field supporting the Philadelphia Water Department and the *Green Cities, Clean Water* Program. The program is approaching 15 years old, and GreenUp is 10 years in — we're proud to have been part of the program for the past decade," says Jim. "A GreenUp priority is providing green, living wage jobs first and foremost. We take this role very seriously and are honored to promote job opportunities and workforce training throughout Philadelphia."

## GreenUp Company Profile

GreenUp, a City of Philadelphia certified Local Business Entity, was established in 2015 to fill the need for a green stormwater infrastructure specialty maintenance service company. Since its establishment, GreenUp has provided key operational and maintenance services for the Philadelphia Water Department's *Green Cities, Clean Water* Program, including horticultural management, grounds maintenance, retrofits and repairs, CCTV pipe inspection, and construction oversight.

GreenUp is committed to green-job workforce development, training, and career advancement, partnering with local workforce programs in Philadelphia to attract skilled, motivated graduates to new jobs in green stormwater infrastructure construction and maintenance. We have also partnered with clients in Philadelphia, Harrisburg, Pittsburgh, and Maryland's Prince George's County to create and deliver training programs for green stormwater infrastructure maintenance – with hundreds of professionals undergoing training over the last ten years.
